

Muhammad Bilal Hussain

Full Stack Software Engineer

SUMMARY

I am a Full Stack Developer with experience in mobile and web application development. I specialize in creating microservices, REST APIs, and scalable architectures. Proficient in C#, JavaScript, Python, and Kotlin, I am passionate about solving complex challenges and continuously expanding my expertise in emerging technologies and DevOps practices. Known for strong problem-solving and analytical skills, I thrive in dynamic environments and am dedicated to delivering efficient, high-quality solutions.

📍 Bonhoefferstraße 13, Room No. 646,
69123 Heidelberg, Germany

ACHIEVEMENTS

Awarded *Best Project* for **Programming Fundamentals**.

CERTIFICATIONS

- Ethical Hacking Course (-
Participation).
- Robomania 16 Robotics
Workshop (Completion).

EDUCATION

2026

Master

SRH Hochschule Heidelberg
Heidelberg, Germany

MSc. Applied Computer Science

2020

Bachelor

Karachi Institute of Economics & Technology(KIET)
Karachi, Pakistan

Computer Science

WORK EXPERIENCE

July 2023 - March 2024

Working Student - Android & ASP.NET Developer

CardiLink GmbH
Fürth, Germany

Extended responsibilities included developing and maintaining ASP.NET web applications, creating backend APIs for Android, and using Blazor to build cross-platform hybrid apps.

March 2022 - June 2023

Working Student - Android Application Developer

CardiLink GmbH
Fürth, Germany

Developed and maintained Android applications while collaborating with cross-functional teams to design and implement innovative features.

October 2020 - August 2021

Full-stack Developer

Technoflick Solutions (Private) Limited
Karachi, Pakistan

Built and maintained full-stack web applications, APIs, and databases, ensuring performance, scalability, and security.

April 2020 - September 2020

Intern Software Developer

Technoflick Solutions (Private) Limited
Karachi, Pakistan

Contributed to web application development, debugging, and team projects while learning modern development practices.

LANGUAGES

English - Expert
German - Beginner

HOBBIES AND INTERESTS

Coding: Personal projects in various programming languages
Learning New Technologies
Software Development Workshops
Reading: Especially tech-related literature, focusing on cloud computing and cybersecurity.
Hiking and Outdoor Activities
Photography

PROJECTS

Human Resource Management (HRM) System: I developed a HRM system using Java (Spring Boot) and React.js, featuring employee management, payroll, vacation, attendance tracking, and more.

Virtual Assistant Chatbot: I developed a Virtual Assistant Chatbot in Python using SVM, GloVe embeddings, and LLMs.

Blockchain-Supply Chain Management: I developed a Blockchain-based Supply Chain Management system using Python.

Restaurant Management System: I developed a Restaurant Management System using ASP.NET and C#, implementing SQL Server.

SKILLS

Java

Spring Boot

C#

ASP.NET MVC

REST API

Kotlin

Object-Oriented Programming

JavaScript

micro-services architecture

Docker

Prototype

Software testing

Database Programming

SQL Database

Algorithms

Agile Methodologies

Data structure

GitHub

CI/CD Pipeline

Team-oriented

Unit testing

Report Writing

Documentation

Atlassian JIRA

Postman
